-

UI/UX DESIGN

- Elements of design
- Principles of design
- Creating patterns using different shapes.
-

FRONTEND MOBILE

- Using git and Github.
- Data types in Kotlin.
- Writing different versions of a letter.
- Variables in Kotlin.

BACKEND

- Linux based operating systems.
- Backend programming languages.
- Commands used in python.
- What python can be used to build.

NAVIGATING YOUR JOURNEY

- How to fold my clothes.
- Table manners.
-

UX RESEARCH

- Types of research.
- Good and bad UX.
- HCD process.

PRODUCT MANAGEMENT

- Gmail.
- Google docs.
- Google slides.
- Google sheets.
- Duties of a product manager.

QUALITY ASSURANCE

- SDLC models.
- Software testing types.
- Functional and non-functional requirements.
- Test cases.

DAS

- Operating systems
- Parts of a motherboard.
- Bits and bytes.
- Big O method.

QA

- SDLC models.
- Test cases.
- Test plan.
- HCD process
-
